Transswest Helicopters Ltd.

Transwest Helicopters, an approved Bell Customer Service Facility (CSF), was first established in Western Canada in 1965. For over 50 years we have offered our customers comprehensive Bell 214B, 212, and 412 helicopter solutions.

Known for proudly operating our fleet of Bell 214B helicopters for many years, Transwest has adapted to changing market conditions, concentrating on both domestic and international maintenance, repair and overhaul work and is now diversifying further into the manufacturing of hard-to-source helicopter parts. From manufacturing to maintenance, repair and overhaul, to part sales or support, our **capabilities** (*click on capabilities to search our listing*) ensure our customers receive efficient and cost-effective results.

Transwest is internationally recognized and approved by aviation authorities including Transport Canada Civil Aviation (TCCA), European Aviation Safety Agency (EASA), Korean Civil Aviation Safety Authority (KCASA), the Indian Directorate General of Civil Aviation (DGCA) and the FAA (MIP) Maintenance Implementation Procedures.

We are a world renowned Maintenance Repair and Overhaul facility specializing in major component overhaul for the Bell medium series. Our team of exceptionally experienced, factory trained maintenance and engineering professionals prioritize time-value, quality and safety.

A comprehensive Transwest Helicopters Ltd. Safety and Quality Management System (SMS) has existed since 2007. With extensive resources, strategic partnerships and dedication to customer value, we provide fast turnaround times whilst remaining extremely cost effective.

Key services offered by Transwest include:

- Worldwide 24/7 AOG support and field maintenance,
- Complete helicopter rebuild and refurbishment with fly-in, fly-out convenience,
- Component overhaul, avionics, structural repair, aircraft welding, painting and finishing divisions,
- Specialized T5508D and T53 engine maintenance and overhaul.

Transwest Helicopters carries a vast inventory specializing in Bell 212, 412 and 214B models. The primary goal of our parts division is to minimize aircraft downtime and provide exceptional customer support and service.

As a Bell CSF we ensure rapid procurement and competitive pricing for standard and hard to find parts, while our in-house overhaul facility, exchange pool and dynamic component rental program ensure our customers maximize revenue hours.

Transwest Helicopters is located strategically in the Southern Interior of British Columbia, Canada, just 20 minutes from the Canada/USA border. Our hangar is located in Oliver, B.C. at the Municipal Airport (CAU3).

As your legacy aircraft specialists, Transwest is committed to providing our customers with the highest-quality, and most cost-effective helicopter services available at competitive Canadian dollar prices, through our team of knowledgeable, skilled and dedicated professionals.
